Knows What It is Talking About.

By voting on the bond issue you
will reduce your taxes. It will be eas-
ier for the taxpayer to have twenty
years in which to pay for the pikes
than three years. So vote for the bond
issue.—Richmond Register.

A Noble Act.

Corporal H. D. White tells The Rec-
ord that the profits coming to Co. L
from the regimental canteen, about
\$90, will be used in purchasing grave
stones for the members of the com-
pany who died in the service.

Vote for the bonds.

Judge M. D. Hughes has been doing
able work in the interest of the
bonds. Every public-spirited man
should hustle for them by calling at-
tention to them and explaining to
those who do not understand the mat-
ter.

Henry White, who got the place o
wagon master in the Second Missour

members of the Second Kentucky
regiment who go from here are Jim
Gaines and John Pritchett.

Public Sale.

G. A. Swinebroad will on Nov. 10th
sell at auction, on his farm near Huc-
cle on old Danville and Lancaster
pike all the household and kitchen
furniture, farming implements, 15
stockers and feeders, mules, horses,
400 barrels of corn, and other things
too numerous to mention.

Try It.

A war tax should be placed upon fel-
lows who lounge about public offices
and stores. Make the tax pretty steep
and require the loafer to have a stamp
about eighteen inches square pasted
on the most appropriate place on his
body. We believe that rather than
pay anything such fellows would go
to work.

Extra Dollar from Danville.

One of our Danville friends sent The
RECORDS collector a dollar bill Tues-
day and asked to say from whom it
came. As there are several subscribers
over there who owe the same amount,
the sender of the dollar will please
hold up his right hand.

Every newspaper published in coun-
ties that voted for free pikes is urging
the people to vote for the bonds. It's
the only thing left to do and the peo-
ple who are taking no interest in the
matter should remember that their
interests are involved and very much
so. Look into the matter.

Medal for Capt. Duncan.

After the Lancaster company had
been mustered out at Lexington, Sat-
urday, the Madison county members
presented Capt. Sam Duncan with a
handsome medal as a token of their
high regard for him. We heard one of
them say "That man is the best officer
I ever saw, and we all have learned to
love him. He has a warm spot in our
hearts." We also heard members of
other companies say Sam was the best
captain in the regiment.

Flourishing.

The Graded School is in the most
prosperous condition since its estab-
lishment. There are now 250 pupils
enrolled and everything moving along
nicely. This is the best institution
the town ever had. It is run in the
interest of the people and is free from
the "bussing" of any church or certain
set of men. The taxpayers and pa-
trons have a standing invitation to
visit the school at any time. We can-
not understand why any person can
try to break down so noble an insti-
tution. We certainly have no citizens
who would want to break up an in-
stitution like this school for the
measly purpose of saving a few cents
tax.

What Bro. Walton Thinks.
By voting for the bond issue, you
will reduce present taxation and let
those who come after us be some of
the burdens that this generation has
borne in building and buying pikes.
Lincoln county has paid fully half and
in many cases nearly all for building
the pikes constructed in the last score
or so of years.—Stanford Journal.

Croakers to the Front.

The talk of building an opera house
and hotel will now furnish a subject
to be run down by the store-stove nu-
ssance and street-corner orator. These
fellows sit at least eighteen hours out
of the twenty-four and orate on things
they know nothing about. If the law
only required the town marshal to
make every loafer go to work, much
idle gassing and sometimes trouble
would be avoided.

No Trouble Now.

Clay Hamilton went on duty as
night man at the depot Monday. You
will have no trouble now in buying
your tickets, having baggage checked
or getting your trunks put off and
placed in the depot until morning. Mr.
Hamilton will always have a confor-
mable fire in the waiting room, and
keep out the usual crowd of loungers
and loafers who hang about such
places.

Sick of It.

Rob Henry, formerly of this office,
and went west recently to grow up
with the country, found the "Wine
and Wooley" was not what it was
cracked up to be. He had not been
there long before he would find him-
self eating the crumbs which fell from un-
cle Solon's table, and said he would re-
turn unto the parental roof. He ar-
rived yesterday and Mr. Henry, Sr., is
looking around for a good, cheap veal
to slaughter.

The Southern Mutual.

This Investment Company has won
the good will of the most prominent
business men all over the state and is
growing to an enormous extent. Par-
ties are putting in all the surplus cash
they have and are delighted with the
results. Ask J. C. Hemphill to explain
the plan and you will soon see the ad-
vantages and many good points. The
best and most prominent business men
in Lexington are at the head of it.

No More Union Meetings.

Interest in the union meetings grad-
ually melted away until last Sunday
but one couple and its man lumbered
away to about a hand of people.
It is to be regretted that these meet-
ings were not continued, as they
brought the people closer together and
showed to the outside world that they
believed in brethren dwelling togeth-
er in unity. Any person who thinks
that only the members of his church
will get to heaven, hasn't enough gen-
uine religion in his hide to get a
hanghai chicken through the pearly
gates.

Vote for the bonds.

Officers Still In.

Most of the officers have not yet been
mustered out and probably will not be
for several weeks. Their muster out
papers have to undergo a good deal of
red tape manipulation before they get
their discharges from Uncle Sam. As
such officer at various times has been
custodian of government property, he
must get a quittance from six separate
departments, to show that he owes the
government nothing. Consequently
the officers of the Second will remain
in for sometime, straightening up
their accounts with the government.
Some of them may re-enter the service
by securing positions in the regular
army.

McDonald-Weisiger.

Dr. P. McDonald, of Danville, and
Mrs. Mary K. Weisiger, of this city,
were married at the residence of the
bride's parents, Squire and Mrs. W.
H. Kincaid, on Danville street, at ten
o'clock, Tuesday morning. The cere-
mony was performed by Rev. W. O.
Goodloe. The couple left at once for
Louisville, where they took a steam-
boat for St. Louis. They will go from
there to Chicago and take an extended
trip through the northern states. The
bride is a lady of refinement and cul-
ture, and has many friends in Central
Kentucky. Dr. McDonald is a leading
minister in the Presbyterian church,
and at this time holds the position of
Synodical Minister. He is a man of
much ability and a good speaker.

More Favors from Mr. Hood.

The people of Lancaster should take
off their hats to Sup't. Hood. He has
certainly worked to help us all along,
and is continuing to do so. His latest
move is to have the afternoon train
from Stanford charged to arrive an
hour earlier, thus giving the people
the papers and mail at 3:15. The
change is a much needed one, as a
man can get his mail in time to work
on the night trains. The L. & N. is cer-
tainly doing the proud thing by Lan-
caster now. People who want to bring
little suits against the road over tri-
al matters which the company will al-
ways settle at anything like a reason-
able figure, should quit annoying the
railroad people now.

FRIDAY, November, 4, 1898.

Vote for Turnpike Bonds.

We desire to have the voters of this county reason together on the turnpike question. Dismiss all prejudices and predilections in reference to the original question of free turnpikes, and consider the condition of affairs which will inevitably follow the defeat of the bond issue. Mob violence and an endless debt, for the payment of guards, will be inflicted upon the people. It has been demonstrated that the cost of guards at the gates would be far in excess of the amount required to purchase, keep in repair and maintain the roads of the county. This being admitted, it is to the interest of the taxpayer to vote for the bonds, and to the interest of every voter to vote likewise, in order to secure for themselves and their descendants that peace and quiet so desirable in every community, and the proper maintenance of good roads, which are necessary in the delivery of farm products, attending courts and places of worship, as well as in every kind of commerce or trade which is conducted by the people.

It has been ascertained that the 25 cents, which was levied on each \$100, is insufficient to pay for the roads, which have been purchased, in seven years, and keep them in repair; the amount, for repairs, only being sufficient to appropriate six rods of metal to the mile, and every one knows that this means poor roads. Besides, this tax will still be collected, if the bonds are defeated. With this state of affairs, it appears to be wise and economical to vote the bonds and have good roads, which can not be had at present.

It goes without saying that the voters, in those sections of the county where roads are free, will vote for the bonds, and it would be to the best interest of those who live in sections where toll is collected, to do likewise. Under the present conditions, the last named class are paying tax to maintain roads in other sections, and, at the same time, they are paying toll. This is a manifest injustice, a burden, a hardship which can only be avoided by voting the bonds, and enabling the Fiscal Court to purchase and free the roads in their sections. This is the only solution of the problem, and the only just and equitable escape from the objectionable surroundings. This course will insure the greatest good to the greatest number in which is the end sought and desired every well regulated government, from the most obscure hamlet to the most powerful nation.

The Fiscal Court has lately purchased the seven miles of the Crab Orchard road, lying in Garrard county, for \$2,500, provided the bonds carry. This is a reasonable sum and should be satisfactory to everybody. Of course, if the bonds do not carry, the gates will be replaced.

It is proposed to issue \$30,000 in bonds to run 20 years, which can be sold at par, at 4 per cent. interest. This is no large debt, as our public buildings are in good condition and current expenses are not excessive. Instead of increasing the levy of 25 cents it would diminish it, the only difference being that a levy would be made for 20 years instead of seven years, the amount being so small as not to be burdensome. The county once had a debt of five times this amount, when current expenses were excessive.

A prominent member of the court estimates that the levy for current expenses can be reduced to 12 cents, and, if the bonds carry, the levy for turnpike purposes can be reduced to 20 cents, making a total of 32 cents, which is below an average for years past. There are 90 miles of road, with improved machinery, can be kept in good repair at \$50 per mile, or \$4,500, while ditching will cost about \$200. The interest will amount to \$1,300, and the sum passed to the sinking fund, annually, \$1,500. These items amount to \$7,700. In round numbers, the taxable property amounts to \$4,000,000, and 20 cents on each \$100 would yield \$8,000, or \$300 more than the amount required. By this plan, the roads could be purchased at reasonable prices and settlement could be made, without imposing a burden on any one. This appeal is not made in the interest of any faction or political party. The issue rises far above the tricks, schemes and aspirations of the ordinary politician. It is one in which every citizen, democrat or republican, is deeply interested. It deals with the peace, the progress and prosperity of every community alike.

It behooves those who oppose the bond, to pause and examine themselves, in order to see if personal or political prejudice is not determining their course. The proposed system has been inaugurated in other States and counties, giving perfect satisfaction. The peculiar circumstances existing in our county, demand its adoption here.

It should be remembered that two-thirds of the votes cast, at the election, must favor the bond or the issue is lost. This should be remembered and everybody should put the stencil in the square next to the word, "YES."

REV. SAM P. JONES, the Georgia evangelist, and Mrs. Jones were at the salt house in Louisville Monday before leaving for the South. Mr. Jones was seen by a reporter, says the Louisville Commercial:

"I'm a mixture on politics," he said in response to a request for his opinion on the political situation. "I gave up the parties long ago and tied to principles. I don't ask what party is in or will get in. I ask: What will they do when they get in? I don't support men, but measures. I don't expect anything of either party. They're both in the grip of the rum crowd from amount to tail. The Democratic party indorsed the liquor men in their platform. The Republican party didn't, but any leader will tell you, if you are a liquor man, that the party won't do anything to injure you. Take McKinley and Bryan. They're both good men—Christian men—the cleanest men that ever contended for the presidency. One is a praying deacon in the Methodist, the other a praying elder in the Presbyterian church. One was running on the gold buggery and the other on silver diggery. Neither of them dared to say anything about the rum traffic, though both knew that our liquor bill for a year is more than all the gold and silver in the country. Yes, they're both good men, Christian men, but they're both tied to their parties and couldn't say what they knew they ought to say."

THE American Peace Commissioners Monday presented to the Spanish commissioners at Paris a formal statement of the purpose of the United States to take possession of the entire Philippine group. The United States will not assume the Philippine debt of \$40,000,000, but will be responsible for such part of it as represents "pacific expenditures" for permanent betterments. This Government will not assume any debt contracted in support of military operations against the Philippine insurgents. The joint session adjourned until Friday in order to give the Spanish commissioners time to prepare their reply. The Courier-Journal says while Spain will hold out as long as possible in order to secure the utmost that this country can be induced to pay for the Philippines, it is not believed at Washington that resistance to the demands of the United States will be carried to the point of breaking off negotiations—a step that would only result in Spain's loss of the Philippines without any compensation whatever. While no further communications on the subject have been exchanged, it is believed at Havana that the sovereignty of Cuba will be assumed by the United States January 1, though evacuation by the Spaniards will not be completed by that time. The Spaniards, it is said, will accept this position under protest.

In order to have your vote counted for turnpike bonds, put the stencil in the square, opposite the word, "Yes."

Loss of Trade.

Free turnpikes are necessary now, as the adjoining counties have adopted that system. The collection of toll would drive trade from our merchants, all over the county. Vote for the bonds and hold your trade.

This does not change price or quality, and a fit is guaranteed.

A Queer Medicine.

There is a medicine whose proprietors do not claim to have discovered some hitherto unknown ingredient, or that it is a cure-all. The honest medicine only claims to cure certain diseases, and that its ingredients are recognized by the most skilled physicians as being the best for Kidney and Bladder diseases. It is Foley's Kidney Cure.

means pain, danger and possible death for some women. For others it means practically no discomfort at all. There is no reason why childbirth should be a period of pain and dread. Several months before a woman becomes a mother she should prepare herself for the critical ordeal. There is a preparation made which is intended for this purpose alone. The name of this wonderful preparation is **Mother's Friend**.

Mother's Friend.

It is a liniment to be applied externally. It relaxes the muscles and relieves the distension, gives elasticity to every organ concerned in childbirth, and takes away all danger and nearly all suffering. Best results follow if the remedy is used during the whole period of pregnancy. It is the only remedy of the kind in the world that is endorsed by physicians. \$1 per bottle at all drug stores, or sent by mail on receipt of price. WALLACETON.

A cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectively with One Minute Cough Cure, the best remedy for all ages and for the most severe cases. We recommend it because it's good. At Stornes' Drug Store.

Several of our vicinity attended the Sunday School Convention held at the Glade church, near Berea, Saturday, and report a good meeting, although the attendance was not so large as was expected.

On the 12th and 13th inst., will be held the Quarterly meeting at this place by Elder J. S. Miller. Preaching will begin Friday night before and continue at least up to Sunday night.

Just before midnight last Friday, James P. Soper, aged 66 years, died after intense and almost constant suffering from heart trouble, for several months. Several years ago we almost invariably spoke of him through THE RECORD as "our jolly, fat man," but the joint ravages of rheumatism and heart disease long since rendered that term inapplicable. Mr. Soper had been a member of the M. E. church for more than forty years, and was one of the nine chartered members who built the Methodist church here thirty-two years ago. He reared a family of ten children, all of whom became members of the church he helped build, and nine of whom still survive him and mourn his departure.

The patent churn excitement has about died out; next in order is the man with the golf brick.

We heard a young lady discussing the methods of the new dentist at Lancaster, and she said they used victimized air. No comments necessary.

We attended church a few nights ago and heard an excellent sermon on how we could live contented, but what we want to know of this man is, how to live contented.

We hear more talk of securing the services of that eminent turnpikman, and clever gentleman, Col. Patrick Dooley, as supervisor on our pike for the coming year.

Pretty soon the merry chuckle of the mover's wagon will be heard in the land.

Sorghum making is about through with in this community.

Mr. Clayton Humphrey and Miss Eva Denna, were married at the home of the bride's parents, Oct. 26, Rev. Willis, of Harrodsburg, officiating. After the ceremony an elegant supper was served, and the couple attended preaching at Mt. Lebanon, then returned to the bride's parents home, to spend the night. Shortly after they returned they were startled by a company of twenty men, led by B. F. Allen, of Lexington, who had just arrived in the vicinity that afternoon. The rattling of old tin buckets and cowbells, were heard for miles; after the serenade the company was invited in, and refreshments were served, after which they wished the couple a long and happy life, they departed and went quietly to their homes.

I am very pleased to state that since I took the agency of Chamberlain's Cough Remedy the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. I am going to ask you to have it placed in the bottom of your pockets, and the children. E. J. CANTERBURY. For sale by R. E. McRoberts.

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhalant mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes: "I could see no improvement whatever, and washes, and different inhalant remedies, in fact, I could feel that each winter I was worse than the year previous."

"Finally it was brought to my notice that Catarrh was a blood disease, and after thinking over the matter, I saw it was unreasonable to expect to be cured by remedies which only reached the surface. I then decided to try S. S. S., and after a few bottles were used, I noticed a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never effected them any good, and take S. S. S., a remedy that can reach the disease and cure it."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly reaches Catarrh, and never fails to cure even the most aggravated cases.

S. S. S. For the Blood

is Purely Vegetable, and is the only blood remedy guaranteed to contain no dangerous minerals.

A sure sign of Croup.
Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by R. E. The growing wheat crop from all accounts, is considerably larger in area than last year. Farmers seem to think this crop more profitable than corn or oats at present and prospective prices.

There are several advantages in fall planting of trees. They become established and make a start in the spring before the ground is hard enough to allow of spring planting. The early start means a better growth for the first season, and trees which get an early hold upon the soil endure the droughts of midsummer much better than trees planted in the spring.

About one hundred shots were fired by each side, but the only damage done so far as known was the killing of a mule and two horses and a scratch made by a bullet on Mr. Gates' nose. The posse was out all last week and captured and destroyed 12 stills. The last raid was planned for Sunday afternoon. It was to be made on a still in Leicher county, about a mile from the Virginia line. The road wound through a wild, hilly country, thick with underbrush, and offering every opportunity for ambush.
